

The College Student Java Journey

Decide Where to Buy

"I decide the purpose before I decide where. If I'm meeting up with friends I go to a local place but if it's just to wake me up I go through a drive through."

1

"Am I going to do work, am I going to meet friends, or am I going to actually drink good coffee?"

2

Decide What to Order

"Sticking with a specific drink every time ensures that I know I will like the drink. Trying something new is a gamble."

"Should I try something new? Am I going to like it? Maybe stick to what I know?"

3

Order and Pay for Coffee

"I'm in denial, I spend so much money on coffee!"

"I'm excited to get my coffee but sad my bank account had to suffer for it."

4

Pick Up Your Coffee

"I like to watch them make my drink so I can make sure they are making it right."

"I enjoy watching the process of them getting through the orders - FUN!"

5

Drink Your Coffee

"I'm happy to have my drink."

"I'm relieved. My coffee makes me feel like I'm going to have a good start to my work."
